This Test Report may not be reproduced in whole or in part, except with the written approval of the laboratory.
 This Test Report refers ONLY to the sample submitted to the test itself.

R&D Labs is not responsible for any differences / differences in analytical results deriving from the repetition of the same controls by other subjects in different conditions with the application of different analytical methods and / or the use of different technical instruments. It must be considered that every analytical method has its own precision and accuracy values and slightly different results must be evaluated by analyzing the same sample with different methods.
 The samples examined, except for specific agreements made with the Customer, are disposed of after verification of the results.
